

Visualization and Simulation on Immersive Display Devices

A Special Track of the 4th International Symposium on
Visual Computing (ISVC08) www.isvc.net

Scope:

The focus of this track is on visualization and simulation efforts with the aid of immersive display devices and interfaces. We believe that immersive technologies can be integral, sometimes irreplaceable, components of the scientific process and ask session presenters to specifically address their findings that concur or differ from this position.

Topics:

The topics of interest include but are not limited to the following areas:

- Non-standard displays
- Interaction methods
- Scientific visualization
- Information visualization
- Interactive simulation
- Data exploration
- Visual analytics

Paper Submission Procedure:

Papers submitted to ISVC 2008 Special Track must not have been previously published and must not be currently under consideration for publication elsewhere. Manuscripts should be submitted in camera-ready format and should not exceed **12 pages**, including figures and tables (see <http://www.isvc.net> for details).

All papers accepted will appear in the symposium proceedings which will be published by **Springer-Verlag** in the **Lecture Notes in Computer Science (LNCS)** series.

Important Dates:

Paper submissions	July 21, 2008
Notification of acceptance	September 1, 2008
Final camera ready paper	September 15, 2008
Advance Registration	September 15, 2008
ISVC08 Symposium	December 1-3, 2008
