

Computational Bioimaging

**A Special Track of the
8th International Symposium on Visual Computing (ISVC'12)**

<http://www.isvc.net>

July 16-18, 2012, Crete, Greece

Scope:

In recent years extensive research has been performed in the visualization and modeling of objects present in digital images. These images originate in various areas of science and engineering, including medicine, biology, astronomy, and physics. In medicine, for example, computational procedures allow us to clearly visualize and model human organs captured in magnetic resonance images. These procedures may have different purposes, such as 3D shape reconstruction, segmentation, motion and deformation analysis, registration, simulation, and enhanced visualization.

The main goal of the proposed Special Track is to bring together researchers working in the related fields of Image Acquisition, Segmentation, Registration, Tracking, Matching, Shape Reconstruction, Motion and Deformation Analysis, Medical Imaging, Software Development, Grid, Parallel and High Performing Computing, to discuss and share ideas that will lead us to set the major lines of development for the near future.

Therefore, the proposed Special Track will gather researchers representing the various fields of Computational Vision, Computational Mechanics, Mathematics, Statistics, and Biomedical Imaging. This track intends to contribute to more realistic computational models extracted from images of living organisms and attempts to establish a bridge between practitioners and researchers from these diverse fields.

Topics:

The topics of interest include but are not limited to the following areas:

- Image Processing and Analysis for Computational Bioimaging;
- Segmentation, Reconstruction, Tracking and Motion Analyse in Biomedical Images;
- Biomedical Signal and Image Acquisition and Processing;
- Computer Aided Diagnosis, Surgery, Therapy, Treatment and Telemedicine Systems;
- Software Development for Computational Bioimaging;
- Grid and High Performance Computing for Computational Bioimaging.

Paper Submission Procedure:

Papers submitted to ISVC 2012 Special Track must not have been previously published and must not be currently under consideration for publication elsewhere. Manuscripts should be submitted in camera-ready format and should not exceed **12 pages**, including figures and tables (see <http://www.isvc.net> for details). All papers accepted will appear in the symposium proceedings which will be published by **Springer-Verlag** in the **Lecture Notes in Computer Science (LNCS)** series.

Important Dates:

Paper submissions	May 7, 2012 (Extended)
Notification of acceptance	June 4, 2012
Final camera ready paper	June 18, 2012
Advance Registration	June 18, 2012
ISVC'12 Symposium	July 16-18, 2012

Organizers:

João Manuel R. S. Tavares, University of Porto, Portugal, tavares@fe.up.pt

Renato Natal Jorge, University of Porto, Portugal, rnatal@fe.up.pt

Alexandre Cunha, California Institute of Technology, USA, cunha@caltech.edu

Committee:

Alberto De Santis, Università degli Studi di Roma "La Sapienza", Italy

Alexandre Cunha, California Institute of Technology, USA

Ana Mafalda Reis, University of Porto, Portugal

Arrate Muñoz Barrutia, University of Navarra, Spain

Begoña Calvo, University of Zaragoza, Spain

Christos E. Constantinou, Stanford University School of Medicine, USA

Daniela Iacoviello, Università degli Studi di Roma "La Sapienza", Italy

Daniela Ushizima, Lawrence Berkeley National Lab., USA

Djemel Ziou, University of Sherbrooke, Canada

Eduardo Borges Pires, Instituto Superior Técnico, Portugal

Fiorella Sgallari, University of Bologna, Italy

Francisco Perales, Balearic Islands University, Spain

Guoping Qiu, University of Nottingham, UK

Hanchuan Peng, Howard Hughes Medical Institute, USA

Hemerson Pistori, Dom Bosco Catholic University, Brazil

Igor Yanovsky, Jet Propulsion Laboratory, USA

Jason Corso, SUNY at Buffalo, USA

João Manuel R. S. Tavares, University of Porto, Portugal

Javier Melenchón Maldonado, Open University of Catalonia, Spain

Jorge S. Marques, Instituto Superior Técnico, Portugal

Jose M. García Aznar, University of Zaragoza, Spain

Luminita Vese, University of California at Los Angeles, USA

Luís Paulo Reis, University of Porto, Portugal

Marc Thiriet, Université Pierre et Marie Curie (Paris VI), France

Mahmoud El-Sakka, The University of Western Ontario London, Canada

Manuel González Hidalgo, Balearic Islands University, Spain
Metin N. Gurcan, Ohio State University, USA
Patrick Dubois, Institut de Technologie Médicale, France
Renato M. N. Jorge, University of Porto, Portugal
Reneta P. Barneva, State University of New York, USA
Roberto Bellotti, University of Bari, Italy
Sabina Tangaro, National Institute of Nuclear Physics, Italy
Susana Branco Silva, University of Lisbon, Portugal
Valentin Brimkov, State University of New York, USA
Yongjie Zhan, Carnegie Mellon University, USA
