

## Computational Bioimaging

A Special Track of the  
10<sup>th</sup> International Symposium on Visual Computing (ISVC'14)

<http://www.isvc.net>

December 8-10, 2014, Las Vegas, Nevada, USA

### Scope:

In recent years extensive research has been performed in the visualization and modeling of objects present in digital images. These images originate in various areas of science and engineering, including medicine, biology, astronomy, and physics. In medicine, for example, computational procedures allow us to clearly visualize and model human organs captured in magnetic resonance images. These procedures may have different purposes, such as 3D shape reconstruction, segmentation, motion and deformation analysis, registration, simulation, and enhanced visualization.

The main goal of the proposed Special Track is to bring together researchers working in the related fields of Image Acquisition, Segmentation, Registration, Tracking, Matching, Shape Reconstruction, Motion and Deformation Analysis, Medical Imaging, Software Development, Grid, Parallel and High Performing Computing, to discuss and share ideas that will lead us to set the major lines of development for the near future.

Therefore, the proposed Special Track will gather researchers representing the various fields of Computational Vision, Computational Mechanics, Mathematics, Statistics, and Biomedical Imaging. This track intends to contribute to more realistic computational models extracted from images of living organisms and attempts to establish a bridge between practitioners and researchers from these diverse fields.

### Topics:

The topics of interest include but are not limited to the following areas:

- Image Processing and Analysis for Computational Bioimaging;
- Segmentation, Reconstruction, Tracking and Motion Analyse in Biomedical Images;
- Biomedical Signal and Image Acquisition and Processing;
- Computer Aided Diagnosis, Surgery, Therapy, Treatment and Telemedicine Systems;
- Software Development for Computational Bioimaging;
- Grid and High Performance Computing for Computational Bioimaging.

### Paper Submission Procedure:

Papers submitted to ISVC 2014 Special Track must not have been previously published and must not be currently under consideration for publication elsewhere. Manuscripts should be submitted in camera-ready format and should not exceed **12 pages**, including figures and tables (see <http://www.isvc.net>

for details). All papers accepted will appear in the symposium proceedings which will be published by **Springer-Verlag** in the **Lecture Notes in Computer Science (LNCS)** series.

### Important Dates:

<b>Paper submissions</b>	August 23, 2014
<b>Notification of acceptance</b>	October 7, 2014
<b>Final camera ready paper</b>	October 31, 2014
<b>Advance Registration</b>	October 31, 2014
<b>ISVC'14 Symposium</b>	December 8-10, 2014

### Journal Special Issue:

Authors of the best papers presented in this ISVC 2014 Special Track will be invited to submit an extended version to the journal "Computer Methods in Biomechanics and Biomedical Engineering: Imaging & Visualization" published by Taylor & Francis (see <http://www.tandfonline.com/tciv>).

### Organizers:

**João Manuel R. S. Tavares**, University of Porto, Portugal, [tavares@fe.up.pt](mailto:tavares@fe.up.pt)  
**Renato Natal Jorge**, University of Porto, Portugal, [rnatal@fe.up.pt](mailto:rnatal@fe.up.pt)  
**Alexandre Cunha**, California Institute of Technology, USA, [cunha@caltech.edu](mailto:cunha@caltech.edu)

### Committee:

**Alexandre Cunha**, California Institute of Technology, USA  
**Ana Mafalda Reis**, University of Porto, Portugal  
**Arrate Muñoz Barrutia**, University of Navarra, Spain  
**Begoña Calvo**, University of Zaragoza, Spain  
**Christos E. Constantinou**, Stanford University School of Medicine, USA  
**Daniela Iacoviello**, Università degli Studi di Roma "La Sapienza", Italy  
**Daniela Ushizima**, Lawrence Berkeley National Lab., USA  
**Djemel Ziou**, University of Sherbrooke, Canada  
**Eduardo Borges Pires**, Instituto Superior Técnico, Portugal  
**Fiorella Sgallari**, University of Bologna, Italy  
**Francisco Perales**, Balearic Islands University, Spain  
**Guoping Qiu**, University of Nottingham, UK  
**Hanchuan Peng**, Howard Hughes Medical Institute, USA  
**Hemerson Pistori**, Dom Bosco Catholic University, Brazil  
**Igor Yanovsky**, Jet Propulsion Laboratory, USA  
**Jason Corso**, State University of New York, USA

**João Manuel R. S. Tavares**, University of Porto, Portugal  
**Javier Melenchón Maldonado**, Open University of Catalonia, Spain  
**Jorge S. Marques**, Instituto Superior Técnico, Portugal  
**Jose M. García Aznar**, University of Zaragoza, Spain  
**Luminita Vese**, University of California at Los Angeles, USA  
**Luís Paulo Reis**, University of Minho, Portugal  
**Marc Thiriet**, Université Pierre et Marie Curie (Paris VI), France  
**Mahmoud El-Sakka**, The University of Western Ontario London, Canada  
**Manuel González Hidalgo**, Balearic Islands University, Spain  
**Metin N. Gurcan**, Ohio State University, USA  
**Renato M. N. Jorge**, University of Porto, Portugal  
**Reneta P. Barneva**, State University of New York, USA  
**Roberto Bellotti**, University of Bari, Italy  
**Sabina Tangaro**, National Institute of Nuclear Physics, Italy  
**Susana Branco Silva**, Polytechnic Institute of Lisbon, Portugal  
**Valentin Brimkov**, State University of New York, USA  
**Yongjie Zhang**, Carnegie Mellon University, USA
